

## AURAL PLAYBACK: I, IV, & V TRIADS

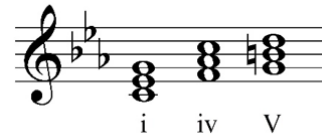

Here are some helpful tips for practicing these aural playback drills.

1. Practice the I – IV – V triads in the key of the example.

### C Major

### C Minor

2. Sing the root of each triad until you can easily hear and sing them - up and down from the tonic triad.
3. Play the audio file and sing the root of each triad as you listen.
4. Play along with the audio file. Since each example is heard 2x, you can sing the first time, play the 2nd time.
5. When this is easy, play along with the audio file both times. It is always a good idea to sing!
